

DIGICERT® PLATINUM SUPPORT

Dedicated Platinum Client Manager supporting your strategic goals

Overview

DigiCert® Platinum Support pairs preferential service levels with a Platinum Client Manager, a dedicated point of contact for driving strategic success with your digital trust initiatives.

Platinum Client Managers bring together DigiCert's deep knowledge and expertise in industry standards, compliance, and best practices in certificate lifecycle management with client-focused communication, incident response, and oversight of project initiatives.

This comprehensive technical support program provides customers with:

-  A trusted advisor and advocate
-  Proactive account management
-  Continuous oversight and adaptation to change

Key support features

Strategic planning that brings together deep knowledge of your enterprise environment with regular communication about product roadmaps, new features, industry compliance changes, and account service levels and utilization.

Incident resolution with a single point of contact for monitoring, escalating, and delivering post-incident updates with root cause analysis.

Project coordination for account objectives such as migration, new feature adoption, and standing up new CAs or implementing custom certificates.

Testing environments

Platinum Support customers also gain access to DigiCert testing environments for evaluating new features and product releases or undertaking proof of concept testing for new use cases.
