

The Total Economic Impact™ Of DigiCert ONE

After interviews with representatives from five organizations, Forrester aggregated the data and concluded that DigiCert ONE has the following three-year financial impact on a composite organization.

CLOUD-BASED CERTIFICATE MANAGEMENT

DigiCert ONE provides the composite organization with a single cloud-based platform. This provides full visibility into its certificate landscape and enables standardized policies and processes. This leads to significant time and labor savings, stronger security, fewer incidents, and greater agility to manage change.

SUMMARY OF BENEFITS

Three-year, risk-adjusted

INCREASE EFFICIENCY AND REDUCE OUTAGES

97% reduction in labor to provision new certificates with manual processes

98% reduction in labor to renew existing certificates*

1 certificate-related outage per year, down from an average of **26**

*Compared with the average time to renew a certificate using manual processes (20%) and legacy tools (80%)

VOICE OF THE CUSTOMER

“Prior to DigiCert, customer confidence in our certificate management was questionable, we frequently had to get vendor assistance, and we had renewal risks. Now things are going so well that we don’t even know who our DigiCert support person is.”

CHIEF RELIABILITY OFFICER, CLOUD SECURITY
