thawte™
powered by digicert®

As the first international certificate authority, Thawte—now powered by DigiCert—has been providing a range of TLS/SSL certificates to customers in more than 190 countries, for nearly 25 years. Our site seal, available in 18 languages, provides visual proof that your site is secure—everywhere. Started as an open-source project, Thawte has been customer focused since the beginning. This mindset is the source of our award-winning customer support. Thawte runs on DigiCert's hyper-converged infrastructure with the highest levels of throughput, reliability and speed. DigiCert has invested more in its infrastructure in recent years than any other certificate authority in the world, providing the industry's most trusted roots.

TOP 5 REASONS TO CHOOSE

1 GLOBALLY RECOGNIZED, LOCALLY DELIVERED

As the first international certificate authority, Thawte—now powered by DigiCert—has been providing customers with SSL code signing certificates so they can maintain the public's trust and always stay on track.

2 POWERED BY DIGICERT

In 2018, DigiCert invested more into its business—including building a modern, world-class infrastructure—than what we believe to be the total revenue of its nearest competitor.

3 BACKED BY OUR TRACK RECORD

For nearly 25 years, Thawte—now powered by DigiCert—has been providing customers with SSL code signing certificates so they can maintain the public's trust and always stay on track.

4 CUSTOMER-DRIVEN SINCE DAY ONE

Thawte started as an open-source project. That same generous spirit drives the way we work with our customers today. Our award-winning customer support, available in multiple languages, is proof.

5 NO-COMPROMISE SECURITY

Thawte delivers the most intuitive certificate management tools with virtually 100% uptime. When it comes to security, you shouldn't have to settle.
