

TOP 12 REASONS TO BUY DIGICERT SECURE SITE PRO

TLS/SSL Certificates

01 

PRIORITY VALIDATION FOR FASTER ISSUANCE

If patience isn't your priority, then you need priority validation. Jump to the front of the line to issue your certificate as soon as possible.

02 

FIVE-STAR PRIORITY SUPPORT

Get a designated line for priority support that is available to help you anytime, day or night with the expertise to guide you through any scenario.

03 

INNOVATIVE DIGICERT SMART SEAL

Put the internet's newest, most interactive, and up-to-date seal on your site. Prove that your site is genuine and authentic—without question.

04 

OPTIONAL NORTON SEAL

Powered by DigiCert, the Norton Seal is still one of the internet's most hardest working seals and is available for you to A/B test for performance.

05 

REGULAR VULNERABILITY SCANNING

Get weekly reports to eliminate vulnerabilities and keep your network, equipment and applications secure from any weaknesses.

06 

UNLIMITED MALWARE & BLOCKLIST SCANNING

Proactively check your domain against 70+ malware or blocklists—as many times as you prefer—before your business or customers' identity are at risk.

07 

ACTIVE CT LOG MONITORING

Ensure no one is impersonating your site and gain quick visibility of the TLS certificates issued for your domain with global monitoring against the CT logs.

08 

CONTINUOUS PCI COMPLIANCE SCANNING

Prepare your site for PCI compliance. Because your customers' credit card data is at stake.

09 

MORE CHOICES AND OPTIONS

Need your certificate to be a wildcard or multi-domain for SANs? Want to lock in savings for up to six years? The choice is yours.

10 

GET THE INDUSTRY-LEADING WARRANTY

The highest industry warranty of \$2 million. Secure your site from damages caused by an outage with added confidence.

11 

COMPREHENSIVE CERTIFICATE MANAGEMENT

Access your own secure dashboard to manage your entire inventory of certificates. Track, issue, install and automate with ease.

12 

POST-QUANTUM CRYPTO READINESS

Prepare for a post-quantum crypto world with our PQC toolkit. Because there's no better time like the present to ensure your future security.
