Introduction

At DigiCert, partners are essential to the success and growth of our business. Our culture supports the development of strong partnerships, executing a shared, focused and purposeful strategy to provide unsurpassed value to our partners.

As a DigiCert partner, you can offer your customers high-assurance certificate options and award-winning customer support. Our commitment to this goal is demonstrated by our comprehensive channel operations which:

- Understand our business partners and leverage their unique strengths
- Offer innovative and profitable channel programs and solutions
- Provide world-class support and tools
- Promote and expand our solutions portfolio for partners

Our outstanding security products, innovation and strong brand uniquely positions us to deliver confidence for customers and consumers by securing websites and applications - **together**.

About this guide

This DigiCert Certified Partner Program Guide supplements the DigiCert Partner Program Agreement and Addendum by providing information regarding the benefits, programs, and other terms related to your membership in the DigiCert Certified Partner Program. The guide is intended to provide current and prospective DigiCert Partners an overview of the benefits and investments required to participate in all levels of the Partner Program. Partners must abide by our branding usage guidelines found on our marketing partner portal.

All partners are encouraged to take full advantage of the benefits available to them at their corresponding level in the program. We are constantly improving our offerings and the Program Guide. Please continue to refer to the DigiCert Partner Marketing portal for the most up to date information on your benefits and special announcements.

DigiCert reserves the right to make adjustments to the program at its discretion.

Program Structure

The Partner Program features four membership tiers, which provide incremental benefits and financial incentives to reward you as your sales increase with DigiCert.

Partners are eligible for a specific membership tier and benefits based on volume of annual sales (or "Bookings"*).

A partner's membership tier is reviewed annually based on the DigiCert Fiscal Year (January 1 - December 31) and partners who do not meet their annual minimum purchase levels are subject to be re-adjusted to their qualifying tier.

		FINANCIAL BENEFITS	MARKETING BENEFITS	SUPPORT BENEFITS
PLATINUM ELITE	At the Platinum Elite tier, you are one of DigiCert's most invested partners and have achieved the highest level of performance. This is by invitation only.			
PLATINUM	At the Platinum tier, you are one of DigiCert's most invested partners and have achieved the supreme level of performance in meeting a bookings threshold of \$250K USD annually.			
GOLD	At the Gold tier, you have invested in your DigiCert partnership through the achievement of the next level of bookings threshold requirement of \$75K - \$250K USD annually.			
SILVER	At the Silver tier, you have exceeded the minimum partnership bookings requirements of \$5k - \$75K USD annually.			

*For the purposes of evaluating Partner Levels, "Bookings" includes sales made to end users through the partners.

Specialization Programs and Certifications

Validate and build your expertise in specific solution areas with the DigiCert Certifications. We offer certifications for Encryption Everywhere, Complete Website Security and for PKI. Our certifications are a blend of self paced learning modules, in person workshops and technical training. Each certification is designed to ensure our Partners are ready to sell our technology and services. Are you qualified to earn one of our certifications? These programs are available to all qualified DigiCert Certified Partners.

Encryption Everywhere

Learn the basics of merchandizing, solution selling and upselling with this certification training. Learn from our marketing and support experts how to successfully sell Encryption Everywhere.

Complete Website Security (CWS)

This fast paced program is designed for our Partners who sell to Enterprise accounts. A combination of technical training and self-paced learning, this certification equips your sales and support team to sell our CWS solutions globally.

PKI

Our PKI certification is designed to provide education and support across three specific use cases - Symantec MPKI 8.x; S-Mime and SAS. The PKI program is unique with multiple benefits and incentives for our certified Partners. The PKI certification is only available for Platinum Partners.

Technology Alliance Partners

DigiCert collaborates with a wide range the world's leading technology companies to our growing connected world. Learn how to make our strategic integrations work for you.

For more information on how to qualify for our certifications and details on certification, please contact partnercertifications@digicert.com

DigiCert is the world's premier provider of high-assurance digital certificates—providing trusted SSL, private and managed PKI deployments, and device certificates for the emerging IoT market. Since our founding almost fifteen years ago, we've been driven by the idea of finding a better way. A better way to provide authentication on the internet. A better way to tailor solutions to our customer's needs. Now, we've added Symantec's experience and talent to our legacy of innovation to find a better way to lead the industry forward, and build greater trust in identity and digital interactions.
