

# How you benefit from the Norton Secured™ seal

Your brand is everything. Your website is where people go to interact with your brand. But if you've invested in SEO or promotions that drive customers to your site, how do you get them to actually buy or call? You have to build trust.

The right SSL certificate can be the critical factor in creating customer confidence in the security of your website. It shows they can trust you with their personal information.

DigiCert is proud to offer the security recognition only Norton Secured™ seal provides so our customers can build trust with their customers around the world.

## Norton Secured™ seal Advantage

As the world's most trusted security seal<sup>1</sup> the Norton Secured™ seal gives your customers peace of mind. Nearly 90% of customers recognize the Norton Secured Seal logo. When they see it, they know they can trust the link, the site, and the transaction.

Displaying the Norton Secured™ seal means your website visitors are more likely to become customers and less likely to abandon their shopping cart. Our own research shows that 93% of customers continue an online purchase when they view the Norton Secured Seal during checkout – more than any other seal or when no seal is displayed.<sup>1</sup>
